AUTOCODE-MINI

Vehicle activation made easy!

AUTOCODE-MINI

The following vehicles can be coded with the Autocode-Mini:

All relevant vehicles can be coded/activated

Audi, Citroen, Ford, Jaguar, Landrover, Mercedes, Opel/Vauxhall, Peugeot, Porsche, Seat, Skoda, VW

When installing a Westfalia-Automotive wiring kit, there is no coding/activation necessary for most vehicle models.

BMW, Chevrolet, Fiat, Honda, Hyundai, Kia, Mazda, Mini, Mitsubishi, Nissan, Renault, Subaru, Suzuki, Toyota, Volvo

You can find a detailed list of codable vehicles here: www.westfalia-automotive.com

When a vehicle-specific electrical kit has been installed, it may need to be enabled in some vehicles. This is the only way to ensure that all legal lighting functions as well as safety and comfort features are activated during trailer operation.

In order to carry out the activation for your customer as fast and easy as possible, the innovative coding tool „Autocode-Mini“ from Westfalia-Automotive is now available.

With the Autocode-Mini you can offer your customers a quickest possible complete solution including installation and coding. For the first time it is now possible to pay per coding of any vehicle, only when required and in a cost-effective way. Alternatively, a certain amount of codes can be purchased at a discount.

Practical

- Special workshop solution with focus on activating the vehicle for trailer operation
- Usage independent of the vehicle manufacturer
- Compact and lightweight handheld unit including OBD and PC connection cable
- Technical support hotline for all questions regarding the usage of the device

Simple

- Particularly user-friendly step-by-step menu navigation
- Clearly arranged PC software for regular device updates

Fast

- Frühestmögliche Verfügbarkeit der aktuellsten Software bei Fahrzeugneueinführung
- In nur wenigen Schritten zur erfolgreichen Codierung

Affordable

- Cheap purchase price for the Autocode-Mini
- No more subscription necessary - Pay per use
- Independent of OE-authorized workshops

Part no. 900 001 400 202

It's that easy:

- As a new customer, you register once in our WAMnet and purchase the Autocode-Mini there.
- As an owner of the device, you always buy your voucher code in the login area as well. This voucher code allows you to activate a certain amount of vehicles.
- In the free PC software, you redeem the voucher code and update the software of the device regularly.
- With the integrated OBD connection cable, you link the Autocode-Mini with the vehicle of your customer and activate it for trailer operation within minutes.
